OBJECTIVE

B.Tech CSE 2nd-year student seeking an internship to gain real-world experience, learn from industry experts, and contribute to impactful frontend and full-stack applications.

EXPERIENCE

- **IEEE Computer Society** Bangalore, India
Technical Associate *Present*
 - **Technical Initiatives:** Contributing to technical development activities and supporting events and workshops.
 - **Collaboration:** Working with team members on tech-based projects and hands-on learning initiatives.

PROJECTS

- **Blog Platform (Full Stack)** [Live Demo](#)
 - Content publishing platform with authentication and database integration.
 - *Tech Stack:* React, Hono, PostgreSQL (NeonDB), JWT, Cloudflare, Vercel
- **Payment App (Full Stack)** [Live Demo](#)
 - Secure payment workflows with backend APIs and user authentication.
 - *Tech Stack:* React, Node.js, Express.js, MongoDB, JWT
- **Currency Converter** [Live Demo](#)
 - Real-time currency conversion using external APIs.
 - *Tech Stack:* HTML, CSS, JavaScript, APIs
- **Todo App (Redux + Context)** [Live Demo](#)
 - Task management application with state management.
 - *Tech Stack:* React, Redux, Context API
- **Interactive UI Website** [Live Demo](#)
 - Responsive and interactive frontend UI project.
 - *Tech Stack:* HTML, CSS, JavaScript

SKILLS

- **Frontend:** HTML, CSS, JavaScript, React (Next.js – learning)
Backend: Node.js, Express.js, Hono
Databases: MongoDB, PostgreSQL (NeonDB), Redis (learning)
Auth & Infra: JWT Authentication, Cloudflare Workers
Tools: Git, GitHub, Docker, Vercel Deployment

EDUCATION

- **BMS Institute of Technology & Management** Bangalore, India
B.Tech in Computer Science Engineering – 2nd Year *2024 – Present*

ACHIEVEMENTS

- **Problem Solving:** Solved 80+ Data Structures and Algorithms problems.
- **Projects:** Built multiple real-world full-stack applications.
- **Leadership:** Active Technical Associate in IEEE Computer Society.
